

Name	Faculty	Position	Research program title	Research interests	Web page
Abedi Ahmad	Faculty of Education and Psychology	Associate Professor	Developing a national model for identifying and educating gifted children	۱- Giftedness -talent- ۲- wisdom ۳-Dual Exceptionality	http://edu.ui.ac.ir/~a.abedi
Abedi Mohammad Reza	Faculty of Education and Psychology	Professor	Developing the model of assessment of career content and process variables in Iran	۱-Preparing instruments of assessment of career content and process variables in acolescents	http://edu.ui.ac.ir/~m.r.abedi
Abedini Yasamin	Faculty of Education and Psychology	Associate Professor	Brain-compatible education: The effect of braincompatible education on learners' learning, motivation and thinking	۱. The Impact of brain compatible instruction (teaching) on learner's learning , motivation and problem solving skills ۲ - The impact of brain compatible evaluation on learner's academic engagement and academic performance ۳ - The impact of brain compatible classroom management on learner's creative and critical thinking skills	http://edu.ui.ac.ir/~y.abedini
Akrami Nahid	Faculty of Education and Psychology	assistant Professor	The Role of communication patterns the pathology of Mental Disorders	۱-Developing a model of traumatic communicationmodel and related treatment package ۲-In vestigating The role of parent-child relationships in the pathological occurrence of disorders ۳-Investigating The difference between the role of father and mother in the pathological aspects of Mental disorders	http://edu.ui.ac.ir/n.akrami
Amiri Shole	Faculty of Education and Psychology	professor	Developing Interventions based on Developmental Psychology	۱-Developing a neuro-developmental model in ADHD ۲-Developing the interventions based on the model and comparing them with the gold standard in lifespan development ۳-Developing interventions based on the positive development for parenting	http://edu.ui.ac.ir/~s.amiri
Asanjarani Faramarz	Faculty of Education and Psychology	Assistant Professor	Investigating the factors promoting a positive school atmosphere: Prediction, screening and effective interventions	۱. Investigating the factors affecting school belongingness and alienation from school in elementary to high school students ۲. Factors affecting the negative atmosphere of school: bullying (cyber and traditional), subject-oriented anxiety (mathematical anxiety) and alienation from school ۳. Investigating the role of individual factors in belonging to the school (demographic, social and psychological)	http://edu.ui.ac.ir/~f.asanjarani
Asgari Mobarakeh Karim	Faculty of Education and Psychology	associate Professor	Compiling a theoretical framework on the interaction between Cognitive functions and Neuroanatomical and Neurochemical aspects of Nerological disorders	۱. Investigating the role of Timing behavior in Neurological disorders, And compiling its theoretical model ۲. Investigating the Interrelationships of Brain and Music ۳. Investigating the Effect of Pharmacologic agents on Brain and Behavior	http://edu.ui.ac.ir/~k.asgari
Ashori Mohammad	Faculty of Education and Psychology	Assistant Professor	Designing and evaluating the effectiveness of educational and rehabilitation interventions for people with sensory impairments and neuro-developmental disorders	۱-Designing and evaluating the effectiveness of educational and rehabilitation program for deaf and blind people and their families. ۲- Designing and evaluating the effectiveness of psychological interventions for people with intellectual disability and learning disorders. ۳- Designing and evaluating the effectiveness of educational and rehabilitation interventions for people with autism and their families.	http://edu.ui.ac.ir/~m.ashori

Azimi SayedAmin	Faculty of Education and Psychology	Assistant professor	Designing, producing and evaluating of e-content and media literacy content	<ul style="list-style-type: none"> ۱-Design and production of e-content based on the principles of Instructional design and multimedia principles ۲-Evaluating e-content ۳-Designing, Producing and evaluating media literacy content 	http://edu.ui.ac.ir/~sa.azimi
Bagher Kajbaf Mohammad	Faculty of Education and Psychology	Professor	Compiling the Educational and Therapeutic Packages Based on Islamic Approach	<ul style="list-style-type: none"> ۱- Compiling the Islamic Educational and Therapeutic Packages on the basis of Nahj-Al-Balaghah ۲- Compiling a Package of Resilience for women on the basis of Islamic Approach ۳-Compiling a Package of Schema therapy with an Islamic Approach for Child Abusers in Afghanistan 	http://edu.ui.ac.ir/~m.b.kaj
Barati Ahmadabadi Hajar	Faculty of Education and Psychology	Assistant Professor	organizational development	<ul style="list-style-type: none"> ۱- Investigating and Conceptualizing the Psychological basis of Organizational Development ۲- Investigating the Complexity of Organizational Development ۳- Compiling and Administrating the Psychological Intervention For Institutions and Organizations 	http://edu.ui.ac.ir/~h.barati
Cheshmeh sohrabiMehrdad	Faculty of Education and Psychology	Associate Professor	Evaluation and retrieval of information and knowledge in information systems	<ul style="list-style-type: none"> ۱. Development of indicators for measuring and evaluating research outputs ۲. Analysis of the semantic retrieval tools of information and knowledge for modeling a smart library ۳. Big data analysis for discovering knowledge patterns 	https://eduold.ui.ac.ir/~mo.sohrabi/
Dastjerdi barat Negin	Faculty of Education and Psychology	Assistant professor	e-learning, new technologies in education and learning, design and product educational multimedia	<ul style="list-style-type: none"> ۱- E-learning ۲- New technologies in education and learning ۳- Design and product educational multimedia 	http://edu.ui.ac.ir/~n.dastjerdi
Esfijani Azam	Faculty of Education and Psychology	Assistant Professor	Design and Evaluation of E- learning	<ul style="list-style-type: none"> ۱- Effective instructional design for e-learning ۲- Evaluation of e-learning effectiveness ۳- Investigation on instructional and psychological variables in e-learning e.g. technology literacy, sense of presence, self regulation 	http://edu.ui.ac.ir/~esfijani
Esmaeili Maryam	Faculty of Education and Psychology	assistant Professor	Compiling a model of Physical Health, on the basis of Positive Psychological factors and Clinical Psychology	<ul style="list-style-type: none"> ۱-Conceptualizing and modeling of physical health on the basis of its components ۲-Compiling psychological interventions for the health, and its Administration in problems concerning with physical health 	https://eduold.ui.ac.ir/~m.esmaili/
Etemadi Ozra	Faculty of Education and Psychology	professor	Developing the Pathology Model of Family Relationship Based on Emotionally focused Therapy	<ul style="list-style-type: none"> ۱- Developing the Pathology Model of Marital Relationship Based on Emotionally focused Therapy ۲-Exploring change processes in Emotionally focused Therapy ۳-Investigating the effectiveness of emotionally focused Therapy on family pathology 	http://edu.ui.ac.ir/~o.etemadi
Faramarzi Salar	Faculty of Education and Psychology	Associate Professor	Designing, Assessment and Educational Intervention and Therapy of learning and Neuropsychological Disorders	<ul style="list-style-type: none"> ۱- Designing screening Model of learning and Neuropsychological Disorders ۲- Designing early education and intervention Model of learning and Neuropsychological Disorders ۳- Assessment, Study criteria and symptoms of learning and Neuropsychological Disorders 	http://edu.ui.ac.ir/~s.faramarzi

Fatehizade Maryam	Faculty of Education and Psychology	professor	premarital counseling model	<p>۱- Developing a premarital counseling model: content/ process and technical components.</p> <p>۲- Asswssment in premaritl counseling.</p> <p>۳- Developing a premarital counseling model in special groups: remarriage/ disabled/children of divorce/ addicted</p>	http://edu.ui.ac.ir/~m.fatehizade
Ghamarani Amir	Faculty of Education and Psychology	assistant Professor	neurodevelopmental disorders : etiology, assessment and intervention	<p>۱-Externalizing and Internalizin behaviors: etiology, assessment and intervention</p> <p>۲- Autism spectrum disorder : etiology, assessment and intervention</p> <p>۳- Intellectual Developmental Disability: etiology, assessment and intervention</p>	http://edu.ui.ac.ir/~a.ghamarani
Heidari Mohammad Hossein	Faculty of Education and Psychology	Associate Professor	Professional ethics in instruction and teaching	<p>۱- Recognizing ethics of instruction in Iranian-Islamic culture</p> <p>۲-Recognizing the components of professional ethics in the thought and behavior of great educators in Iran and the world</p> <p>۳-Foundations and Principles of apprenticeship in Iranian-Islamic culture</p>	http://edu.ui.ac.ir/~mh.heidari
Hoveida Reza	Faculty of Education and Psychology	Associate Professor	analysis Educational Leadership theories	<p>۱- Educational Leadership</p> <p>۲- Quality Management in Education</p> <p>۳-Teacher Leadership</p>	http://edu.ui.ac.ir/~r.hoveida
Kalani Simindokht	Faculty of Education and Psychology	Assistant Professor	Occupational health psychology	<p>۱-Effectiveness and Application of a LeadershipIntervention to Promote Mental Health and Reduce Depression-Related Stigma in Organizations</p> <p>۲-The Impact of Workplace Mental Health Training on Leader Behavior</p> <p>۳-Wellness Programs Over Time: Predicting Participation and Workplace Outcomes</p>	http://edu.ui.ac.ir/~sd.kalan
kalantari Mehrdad	Faculty of Education and Psychology	professor	Grief and bereavement in children and adolescents (theory research and practice)	<p>۱-Designing interventions for bereaved children and adolescents</p> <p>۲-Conceptualizing the theoretical and Practical Models for Psychological Interventions</p>	http://edu.ui.ac.ir/~mehrddak
Liaghatdar M. Javad	Faculty of Education and Psychology	Professor	Entrepreneurship in higher education and professional education of teachers	<p>۱- Developing Courses based on Entrepreneurshio Components from Preschool to Higher Education.</p> <p>۲- Study of Higher Education Curriculum.</p> <p>۳- Study of Schools Curriculum and Textbooks.</p>	http://edu.ui.ac.ir/~javad
Mansouri Ali	Faculty of Education and Psychology	Associate Professor	Extraction , analysis and Evaluation of Research data and Scientific Outputs	<p>۱- Extraction, analysis and evaluation of research data and science outputs</p> <p>۲-The pattern for evaluating the scientific outputs of the humanities</p> <p>The pattern of research data management services in university libraries</p> <p>۳- Data Modeling and information extraction based on data mining techniques</p>	http://edu.ui.ac.ir/~a.mansouri
Mehrabi Ali	Faculty of Education and Psychology	Assistant Professor	Trauma and Emotional disorders	<p>۱- investigating psychopathological factors related to trauma and emotional disorders</p> <p>۲- Developing theoretical models and interventional programs to prevent and treatment of trauma and emotional disorders</p> <p>۳- Evaluating the efficacy of current and novel protocols and packages for trauma and emotional disorders</p>	http://edu.ui.ac.ir/~a.mehrabi

Mehrabi Kooshki HosseinAli	Faculty of Education and Psychology	assistant Professor	identification psycho social factors effective in mental health and social pathology in iran	۱-identification the role of psycho social factors effective in mental disorders ۲- social problems and ۳- tendency to high risk behaviors	http://edu.ui.ac.ir/~h.mehrabi
Mirshah jafari Seyed Ebrahim	Faculty of Education and Psychology	Professor	Transformative Teaching in higher education	۱- Strengthening employability and entrepreneurship in students ۲- Theorizing in higher education- ۳- Cultivating of social responsibility in students-	http://edu.ui.ac.ir/~jafari
Moghtadaie Lila	Faculty of Education and Psychology	Assistant professor	Social entrepreneurship in the form of corporate social responsibility with the approach of empowering local communities in target groups	۱- Implementation of empowerment program ۲-organizational entrepreneurship ۳-evaluation of empowerment program	https://eduold.ui.ac.ir/~l.moghtadaei/
Mohamadiostani Morteza	Faculty of Education and Psychology	Assistant Professor	Knowledge and Information Organization	۱- Investigating new approaches and technologies in the field of information and knowledge organization ۲- Interoperability of semantic systems of organizing information and knowledge with web search engines ۳- Enrichment of information and knowledge organization systems with cultural heritage context (library, museum and archive) and information management standards	http://edu.ui.ac.ir/~m.ostani
Mousavi Zohre	Faculty of Education and Psychology	Assistant Professor	Employee performance management	۱- Functional job analysis to determine training needs and job standards ۲- Identifying and evaluating job competencies ۳- Designing a job performance evaluation model	http://edu.ui.ac.ir/~z.mousavi
Naghavi Azam	Faculty of Education and Psychology	Associate professor	The study of obstacles and resources of empowerment of people with disability, family caregivers and rehabilitation professionals	۱-Trauma and Post traumatic growth ۲- The challenges and coping strategies of family caregiving ۳- Compassion fatigue and satisfaction among family caregivers and rehabilitation professional	http://edu.ui.ac.ir/~az.naghavi
Najafi Mohammad	Faculty of Education and Psychology	Assistant professor	Educational concepts and requirements in Islamic lessons -	۱- Foundations, principles and methods in Ahl e bait s lessons ۲- Exlanation of education in Islamic philosophy ۳- Emotional education baded on Mavadat e Ghorba in Islamic education	http://edu.ui.ac.ir/~mdnajafi
Nasr Esfahani Ahmad Reza	Faculty of Education and Psychology	professor	Higher Education Curricula in Iran and other Countries	۱-Teaching and evaluation methods in higher education ۲- Methods of developing and reviewing curricula in higher education ۳- Research on the time and place of education	http://edu.ui.ac.ir/~arnasr

Neshat Doust Hamid Taher □	Faculty of Education and Psychology	Professor	Developing the model of cognitive specificity	<ul style="list-style-type: none"> ۱- Providing theoretical framework of cognitive specificity ۲- Investigating the over-general phenomenon in the disorders such as depression ۳- Investigating the effects of interventions focused on the cognitive specificity 	http://edu.ui.ac.ir/~h.neshat
Neyestani Mohammadreza	Faculty of Education and Psychology	Assistant professor	policy making, planning and evaluation in educational systems	<ul style="list-style-type: none"> ۱- Issues and models of policy making and planning in European and American higher education systems ۲ - Issues and models of policy making and planning in higher education systems in Asia, Africa and Oceania ۳- Studying the role of dialogue in policy making and planning of higher education systems 	http://edu.ui.ac.ir/~m.neyestani
Neyli ahmadabadi Mohammadreza	Faculty of Education and Psychology	Associate Professor	Development and implementaion curriculum in higher education	<ul style="list-style-type: none"> ۱-Curriculum in subsystems of higher education, ۲-Teaching in higher education, ۳-Design & development of curricula in higher education 	http://edu.ui.ac.ir/~m.nili.a
Nilforooshan Parisa	Faculty of Education and Psychology	Associate professor	Developing the Model of Employability	<ul style="list-style-type: none"> ۱- Student Employability Conceptualization and Modeling ۲- Assessment of Employability ۳-Development and Application of Employability Interventions 	http://edu.ui.ac.ir/~p.nilforooshan
NorouziGhasem	Faculty of Education and Psychology	Assistant Professor	Designing and evaluating the effectiveness of educational and rehabilitation interventions for people with neurodevelopmental disorders especially those with intellectual and developmental disabilities	<ul style="list-style-type: none"> ۱- Designing and evaluating the effectiveness of educational and rehabilitation program ۲- Occupational rehabilitation for neuro-developmental disorders and families ۳- Occupational rehabilitation for intellectual and developmental disabilities and families 	https://eduold.ui.ac.ir/~g.norouzi/
Nowrozi Reza Ali	Faculty of Education and Psychology	Associate Professor	development rational education models- pfc and teaching thinking	<ul style="list-style-type: none"> ۱-Explaining intellectual education models on philosophers, thinkers and religious teachings ۲- Inference practical models of intellectual education for teaching different types of thinking at different ages. ۳- Development and localization of different models and types of teaching thinking and philosophy 	http://edu.ui.ac.ir/~r.norouzi

Oreyzi Hamidreza	Faculty of Education and Psychology	Professor	assessment center	<ul style="list-style-type: none"> ۱- Designing assessment centers in different organizations, ۲- researching various aspects of the assessment center process and ۳- preparing guidelines for these centers 	http://edu.ui.ac.ir/~dr.oreyzi
Pashootanzade Mitra	Faculty of Education and Psychology	Assistant Professor	Information Resources, Products, and Services Management	<ul style="list-style-type: none"> ۱- Organizing and retrieving information resources and services ۲- Management and marketing of information resources, products and services ۳- Information resources and services for different groups of users 	https://eduold.ui.ac.ir/~m.pashootanzade/
Rezvan Sadat Jazayeri	Faculty of Education and Psychology	Associate Professor	Development of a national model of parent-child roles in the formation of evolutionary growth structures in life	<ul style="list-style-type: none"> ۱- Investigating the evolutionary growth structures of life resulting from parent-child roles from an indigenous and Islamic perspective ۲- Investigation the evolutionary growth structures of life path resulting from parent-child roles from indigenous and Islamic perspectives ۳- Identify the life path based on the investigated indigenous and Islamic structures 	http://edu.ui.ac.ir/~razvgaza
Samavatyan Hossein	Faculty of Education and Psychology	Associate Professor	Work-Worker Fits	<ul style="list-style-type: none"> ۱- Person-Job, Vocation & Career Fits ۲- Human Errors & Safety at Work ۳- Effectiveness 	http://edu.ui.ac.ir/~h.samavatyan
Samiee Fatemeh	Faculty of Education and Psychology	Assistant Professor	Modeling of Career Development in Iran	<ul style="list-style-type: none"> ۱- The Study of Influential Factors and Challenges of Career Development among Students and women ۲- The Study of Methods to Improvement the Career Quality and Competencies ۳- Investigation of the trend of Future Career Changes among Adults and Women 	http://edu.ui.ac.ir/~f.samiee
Sdeghi Ahmad	Faculty of Education and Psychology	Associate professor	Study of causes, factors and interventions of academic-occupational problems in periods of career development	<ul style="list-style-type: none"> ۱- The Study of causes, factors and interventions of academic-occupational problems in students ۲- The Study of causes, factors and interventions of academic-occupational problems in adolescents ۳- The Designing interventions based on the etiology of academic problems and career development 	http://edu.ui.ac.ir/~a.sadeghi
Shabani Ahmad	Faculty of Education and Psychology	Professor	Analysis of theoretical and perspectives on organization and knowledge management and information science in order to optimize information seeking behavior	<ul style="list-style-type: none"> ۱- Study on theories and information seeking behavior in the context of the country's information field ۲- Scientific communications management and information resource centers in optimizing information performance ۳- Study on new area of information organization in order to achieve optimal information pattern 	https://eduold.ui.ac.ir/~shabania/

Sharifian Fereydoon	Faculty of Education and Psychology	Assistant professor	Typology of Theories and Theorizing in Curriculum and Teaching	<ul style="list-style-type: none"> ۱- Application of new theories in curriculum and teaching ۲- Analysis and critique of reconceptualist theorizing in curriculum studies ۳- Personal theorizing and reflection in teaching of faculties and teachers 	http://edu.ui.ac.ir/~f.sharifian
Shavaran Sayed Hamidreza	Faculty of Education and Psychology	Assistant professor	evaluation of models of leadership and organizational culture	<ul style="list-style-type: none"> ۱- New approaches in educational leadership ۲- Academic optimism in educational organizations ۳- Quality assurance in higher education 	http://edu.ui.ac.ir/~reza.shavaran
Siadat SeyedAli	Faculty of Education and Psychology	Professor	Higher education leadership/ Challenges in developing countries based on adaptiveness, iproved performance, decisin making	<ul style="list-style-type: none"> ۱- Institutional adaptiveness with increasing social changes at university level. ۲- University leaders erformance appraisal at andividual and institutional levels. ۳- Transforming decision-making models in higher education: Toward synergy model. 	http://edu.ui.ac.ir/~s.a.siadat
Tavakoli Mahgol	Faculty of Education and Psychology	assistant Professor	Cognitive assessment and rehabilitation in neurological disorders, psychiatric disorders and immunological disorders	<ul style="list-style-type: none"> ۱- Cognitive assessment and rehabilitation in neurological disorders, psychiatric disorders and immunological disorders ۲- Elderly (normal aging, mild cognitive impairment and dementia) ۳- Development of cognitive assessment and rehabilitation application 	http://edu.ui.ac.ir/~m.tavakoli
Yazdkhasti Fariba	Faculty of Education and Psychology	associate Professor	Clinical assesment and diagnosis of mental disorders including obsessive-compulsion and related disorders, anxiety, neurodevelopmental disorders, trauma and stressor related disorders, somatic symptom and related disorders, disruptive impulsive control disorders	<ul style="list-style-type: none"> ۱- Clinical assesment and diagnosis of mental disorders including obsessive-compulsion and related disorders, anxiety, neurodevelopmental disorders, trauma and stressor related disorders, somatic symptom and related disorders, disruptive impulsive control disorders ۲- Designing and developing treatment programs related to the disorders ۳- Designing instruments and serious games in order to facilitate developmental and treatment processes in children, adolescents, adults and elder people. 	https://eduold.ui.ac.ir/~f.yazdkhasti/
